PROFESSIONAL SUMMARY

Software Engineer with 2+ years of software development experience, primarily focused on Java and Spring Boot backend development, with additional experience in healthcare operations. Hands-on experience developing REST APIs and backend services in a microservices-based HRMS SaaS platform. Experienced with Spring Data JPA/Hibernate, PostgreSQL, RabbitMQ, JUnit, Mockito, Docker, and Azure DevOps CI/CD. Currently expanding skills in React.js, frontend development, and AWS Amazon Connect contact center solutions.

TECHNICAL SKILLS

- Backend: Java 17, Java 21, Spring Boot, REST APIs, Microservices, Spring Data JPA, Hibernate, JPA Queries.
- Database: PostgreSQL.
- Messaging: RabbitMQ.
- Testing & API Tools: JUnit, Mockito, Postman, Swagger.
- DevOps & Tools: Docker, Git, Azure Repos, Azure Boards, Azure Pipelines, CI/CD, Build & Release Pipelines.
- Frontend: HTML, CSS, JavaScript, React.js.
- AWS: Amazon Connect, Contact Flows, IVR, Queues, Routing Profiles, AWS Lambda.

PROFESSIONAL EXPERIENCE

3Gen Consulting Services / Forefront Healthcare

Accounts Receivable Support Specialist | Mar 2025 - May 2026

- Performed accounts receivable follow-up and supported healthcare revenue-cycle operations.
- Processed insurance claims, including claim submission and resubmission activities.
- Performed eligibility and benefits verification and supported denial management and follow-up.
- Prepared operational reports and maintained spreadsheets using Microsoft Excel; worked with AdvancedMD and ComitMD.

Nsplus Technologies

Software Developer | Aug 2022 - July 2024

Project: Assisto - HRMS SaaS Platform

- Developed and enhanced REST APIs using Java 17/21, Spring Boot, Spring Data JPA/Hibernate, and PostgreSQL for an HRMS SaaS platform.
- Implemented backend business logic for Company Onboarding, Employee Onboarding, and Employee Management modules.
- Developed backend functionality for asset approval workflows following employee onboarding, including approval/rejection and asset status updates.
- Worked on individual services within a microservices architecture, with basic RabbitMQ integration/support.
- Tested APIs using Postman and Swagger and wrote unit tests using JUnit and Mockito, including validation of error scenarios.
- Used Docker, Git, Azure Repos, Azure Boards, and Azure Pipelines for development, task tracking, code reviews, CI/CD, and deployment through existing pipelines.
- Resolved API bugs and production issues while participating in Agile/Scrum ceremonies and working from user stories and requirements.

PROJECTS

Amazon Connect Contact Center

AWS Amazon Connect | AWS Lambda

- Created and configured an Amazon Connect instance, including users/agents and contact numbers.
- Built contact flows and configured IVR menus, queues, routing profiles, and prompts/audio.
- Implemented a basic AWS Lambda integration to perform a backend action from an Amazon Connect contact flow.
- Configured contact-center and call-routing workflows through AWS documentation and hands-on implementation.

Personal Portfolio Website

React.js | JavaScript | HTML | CSS | GitHub Pages

- Built and deployed a responsive personal portfolio website using HTML, CSS, JavaScript, and React.js.
- Used Git/GitHub for source-code management and deployed the website through GitHub Pages.
- Implemented responsive layouts for desktop and mobile viewing.

EDUCATION

The National Institute of Engineering

Bachelor of Engineering (B.E) in Information Science | Completed in 2022.

Srimath Polytechnic

Diploma in Computer Science | Completed in 2015.

Maharshi High School

10th Standard (SSLC) Completed in 2009.

ADDITIONAL LEARNING

- **Java / Spring Boot:** Completed Udemy course with certificate.
- **React.js / Frontend Development:** Self-taught through hands-on development.
- **Amazon Connect:** Self-taught through AWS documentation and hands-on implementation.
- **Azure DevOps:** Currently pursuing Udemy training.
