

TEJAS G RAO

FRONTEND DEVELOPER

tejasgrock@gmail.com | +91-9738826364 | Mysore, Karnataka, India

LinkedIn: [linkedin.com/in/tejasgrao](https://www.linkedin.com/in/tejasgrao) | Portfolio: <https://tez93.github.io/portfolio-app/>

PROFESSIONAL OBJECTIVE

Junior Frontend Developer with hands-on experience in HTML5, CSS3, JavaScript, and React.js, supported by 2 years of professional software development experience. Experienced in building responsive web applications, reusable React components, client-side navigation, and interactive user interfaces. Strong understanding of REST APIs and backend systems through professional experience with Java, Spring Boot, SQL, and PostgreSQL. Passionate about developing user-friendly web applications and continuously expanding frontend development skills.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design
- UI Development: React Components, React Hooks, DOM Manipulation, CSS Flexbox, CSS Grid
- API Integration: REST APIs, JSON, Fetch API / Axios
- Backend: Spring Boot, REST APIs, Microservices
- Database: PostgreSQL, MySQL
- Tools: Postman, Swagger, Mockito, JaCoCo
- DevOps: Azure DevOps, Docker, CI/CD, Git
- Methodologies: Agile, Scrum

PROJECTS

1.PERSONAL PORTFOLIO WEBSITE

Technologies: HTML5, CSS3, JavaScript, React.js.

- Designed and developed a responsive personal portfolio website using React, JavaScript, HTML5, and CSS3.
- Created reusable React components and structured the application into maintainable UI sections.
- Implemented responsive layouts and interactive UI elements for an improved user experience across devices.
- Integrated project, skills, experience, and professional information into a structured web interface.
- Deployed the application using GitHub Pages and maintained the project using Git.

Live Demo:

Portfolio : <https://tez93.github.io/portfolio-app/#/tejas-portfolio>

2.Calculator App

Technologies: HTML5, CSS3, JavaScript, React.js.

- A functional single-page calculator built with React and custom CSS. Features a dynamic layout, state-driven math operations (+, -, ×, ÷), division-by-zero validation, and step-by-step history tracking.
- Designed the interface using HTML5 and CSS3 with a focus on clean navigation and user-friendly presentation.
- Deployed the application using GitHub Pages and maintained the project using Git.

3.React To-Do Task Manager

Technologies: HTML5, CSS3, JavaScript, React.js.

- An interactive task management web application built using React hooks (useState). Demonstrates core CRUD functionality including task creation, dynamic array rendering using JavaScript .map(), and item deletion via array filtering.
- Implemented interactive appointment functionality using JavaScript.
- Created structured and user-friendly web pages using HTML5 and CSS3.
- Deployed the application using GitHub Pages and maintained the project using Git.

4.Assisto HRMS Web Application

Technologies: Java, Spring Boot, REST APIs, PostgreSQL, RabbitMQ, Docker, Azure DevOps.

- Contributed to the development of the Assisto HR Management Platform by developing and maintaining REST APIs and microservices using Java and Spring Boot.
- Supported backend workflows for employee onboarding, HR verification, project allocation, and timesheet management.
- Worked with PostgreSQL, RabbitMQ, Docker, Git, and Azure DevOps as part of application development and deployment.

PROFESSIONAL EXPERIENCE

3Gen Consulting Services Pvt. Ltd (formerly Forefront Healthcare Pvt Ltd) – Mysore Accounts Receivable Specialist – Healthcare Operations | March 2025 - May 2026

- Managed healthcare insurance claims and denial resolution for US healthcare clients in the DME billing domain.
- Performed eligibility verification and claim follow-ups with insurance providers to ensure timely reimbursements.
- Analyzed claim statuses and payment trends to support efficient revenue cycle management.
- Collaborated with insurance representatives to resolve billing discrepancies and claim denials.
- Maintained HIPAA compliance while handling sensitive patient data.

Nsplus Technologies

Software Developer | Aug 2022 - July 2024

- Developed and maintained enterprise applications for the Assisto HR Management Platform, working with REST APIs, Java, Spring Boot, PostgreSQL, and MySQL.
- Collaborated with development teams and stakeholders to understand application requirements, user workflows, and functional requirements.
- Worked with REST APIs and backend services supporting employee onboarding, HR verification, project allocation, and timesheet workflows.
- Performed API testing using Postman and worked with JSON-based API responses and integrations.
- Participated in sprint planning, requirement analysis, code reviews, debugging, and Agile development activities.
- Used Git, Azure DevOps, Docker, and CI/CD as part of the software development and deployment lifecycle.

CERTIFICATIONS & ADDITIONAL INFORMATION

- Certifications: Java SE 8 Developer Bootcamp. Udemy | August 2022.
- In Progress : Decoding DevOps – From Basics to Advanced Projects with AI. Udemy | Pursuing.
Topics Covered:
Git, Docker, CI/CD, Linux, AWS Fundamentals.

EDUCATION

The National Institute of Engineering

Bachelor of Engineering (B.E) in Information Science | Completed in 2022.

Srimath Polytechnic

Diploma in Computer Science | Completed in 2015.

Maharshi High School

10th Standard (SSLC) Completed in 2009.
