PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience in backend and frontend development using Java, Spring Boot, REST APIs, Microservices, PostgreSQL, React.js, JavaScript, and Azure DevOps. Experienced in building scalable enterprise applications, responsive user interfaces, and collaborating with cross-functional teams.

Currently learning AWS Amazon Connect and cloud-based contact center technologies, with a focus on IVR, contact flows, call routing, queues, and AWS service integrations.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design
- UI Development: React Components, React Hooks, DOM Manipulation, CSS Flexbox, CSS Grid
- API Integration: REST APIs, JSON, Fetch API / Axios
- Backend: Java, Python, Spring Boot, REST APIs, Microservices
- Database: PostgreSQL, MySQL
- Tools: Postman, Swagger, Mockito, JaCoCo
- DevOps: Azure DevOps, Docker, CI/CD, Git
- Methodologies: Agile, Scrum

PROFESSIONAL EXPERIENCE

3Gen Consulting Services Pvt. Ltd (formerly Forefront Healthcare Pvt Ltd) - Mysore

Accounts Receivable Support Specialist – Healthcare Operations | March 2025 - Present

- Managed healthcare insurance claims and denial resolution for US healthcare clients in the DME billing domain.
- Performed eligibility verification and claim follow-ups with insurance providers to ensure timely reimbursements.
- Analyzed claim statuses and payment trends to support efficient revenue cycle management.
- Collaborated with insurance representatives to resolve billing discrepancies and claim denials.
- Maintained HIPAA compliance while handling sensitive patient data.

Nsplus Technologies

Software Developer | Aug 2022 - July 2024

- Developed and maintained enterprise applications for the Assisto HR Management Platform, working with REST APIs, Java, Spring Boot, PostgreSQL, and MySQL.
- Collaborated with development teams and stakeholders to understand application requirements, user workflows, and functional requirements.
- Worked with REST APIs and backend services supporting employee onboarding, HR verification, project allocation, and timesheet workflows.
- Performed API testing using Postman and worked with JSON-based API responses and integrations.
- Participated in sprint planning, requirement analysis, code reviews, debugging, and Agile development activities.
- Used Git, Azure DevOps, Docker, and CI/CD as part of the software development and deployment lifecycle.

PROJECTS

1.PERSONAL PORTFOLIO WEBSITE

Technologies: HTML5, CSS3, JavaScript, React.js.

- Designed and developed a responsive personal portfolio website using React, JavaScript, HTML5, and CSS3.
- Created reusable React components and structured the application into maintainable UI sections.
- Implemented responsive layouts and interactive UI elements for an improved user experience across devices.
- Integrated project, skills, experience, and professional information into a structured web interface.
- Deployed the application using GitHub Pages and maintained the project using Git.

Live Demo:

Portfolio : <https://tez93.github.io/portfolio-app/#/tejas-portfolio>

2.Calculator App

Technologies: HTML5, CSS3, JavaScript, React.js.

- A functional single-page calculator built with React and custom CSS. Features a dynamic layout, state-driven math operations (+, -, ×, ÷), division-by-zero validation, and step-by-step history tracking.
- Designed the interface using HTML5 and CSS3 with a focus on clean navigation and user-friendly presentation.
- Deployed the application using GitHub Pages and maintained the project using Git.

View Code : <https://github.com/tez93/calculator-app>

3.React To-Do Task Manager

Technologies: HTML5, CSS3, JavaScript, React.js.

- An interactive task management web application built using React hooks (useState). Demonstrates core CRUD functionality including task creation, dynamic array rendering using JavaScript .map(), and item deletion via array filtering.
- Implemented interactive appointment functionality using JavaScript.
- Created structured and user-friendly web pages using HTML5 and CSS3.
- Deployed the application using GitHub Pages and maintained the project using Git.

4.AWS / Contact Center

Technologies: Amazon Connect, Contact Flows, IVR, Queues, Routing Profiles, AWS Lambda, Amazon Lex, Contact Lens, IAM, Amazon S3, Amazon CloudWatch, DynamoDB.

- Developing a cloud-based customer contact center using AWS Amazon Connect, implementing IVR, contact flows, queues, routing profiles, and agent workflows.
- Integrating AWS Lambda and DynamoDB to retrieve and manage customer information, enabling backend business logic and personalized customer interactions.
- Exploring Amazon Lex, Contact Lens, IAM, S3, and CloudWatch to enhance conversational automation, contact analytics, security, call recording, and monitoring.

CERTIFICATIONS

- Certifications: Java SE 8 Developer Bootcamp. Udemy - August 2022.
- In Progress : Decoding DevOps - From Basics to Advanced Projects with AI. Udemy - Pursuing.
Topics Covered: Git, Docker, CI/CD, Linux, AWS Fundamentals.
- In Progress : AWS CONNECT - Connect Flow,Contact,Channels,Amazon Connect Architecture, Connect Instance,Contact Flow, Flow Blocks,Lambda,Queues,Routing Profile,Prompts and Hours of Operation.

EDUCATION

The National Institute of Engineering

Bachelor of Engineering (B.E) in Information Science - 2022.

Srimath Polytechnic

Diploma in Computer Science - 2015.

Maharshi High School

10th Standard (SSLC) - 2009.
